Good afternoon,

LJB Inc. is performing a phase I environmental site assessment on behalf of the Ohio Department of Transportation for two sites in Miamisburg (45342), Montgomery County. The database search performed as part of the investigation of the phase I properties identified two sites with possible EPA-related records and identification numbers.

As part of the phase I ESA, we are required to review all government agency files for the subject property. Based on preliminary searches, we have adequate access to CERCLA/Superfund documents for the Mound Plant through other sources. Therefore, I am requesting copies of all files your office maintains for the properties listed below, with the exception of files maintained by the Superfund Division for the Mound Plant under any of its pseudonyms. If a large volume of files is identified, I would prefer that you provide a general list of the available file types and an estimate of the cost of providing copies.

I understand that there may be a fee involved with this request; please contact me with an estimate of any charges or if you need additional information.

Thanks,

Alex Zelles
